OTTAWA, July 7.

The Manitoba school case will be heard by the judicial committee of the privy council on July 13th.

The Senate, on Wednesday, passed the redistribution bill without discussion or amendment. Boulton withdrew his motion to give Athabasca district a member.

The Commons, on Wednesday morning, decided against the extra sessional indemnity. Foster moved the house into committee on ways and means. He proposed some minor tariff changes, including a duty of 5 per cent. on eggs. He also asked power for the government to negotiate reciprocity with the States.

WINNIPEG, July 7.

Two hundred and forty members have been elected to the British parliament so far. The conservatives have 122, the liberals 90, unionists 20, Irish nationalists 4. Liberals, so far, have made a net gain of 16 seats. Indications now are that Salisbury will be sustained by a slim majority.

The strike at Homestead, Pennsylvania, continues. Three hundred of Pinkerton's men arrived yesterday morning by boat to take charge of the Homestead Steel Company's property. The striking workmen and their friends, numbering several thousands, resisted the interference. The Pinkerton's opened fire, which was returned by the strikers. Skirmishing continued all day. Eight strikers were killed and twenty-five injured. Three Pinkertons were killed and eleven injured. The Pinkertons finally surrendered. Their arms and accoutrements were confiscated and their boats burned by the mob. The prisoners were conducted to the state line and liberated. The sheriff has called for assistance, and it is expected another conflict will occur to-day. The militia have been called for, but the governor will not order them out until there has been an arbitration.

LOCAL.

MRS. W. L. WOOD arrived from the Landing on Monday.

The town graders are working on First street, river lots 12 and 14.

A. McLEAN, of Kingston, Ont., is visiting Mrs. Jas. McDonald.

J. A. MITCHELL, of the Indian department, returned from Victoria on Tuesday.

THE H. B. Co. steamer Athabasca leaves the Landing for Grand Rapids on July 12th.

E. G. WOODWORTH, representing the Regina Leader, visited Edmonton on Monday's train.

THE H. B. Co. are building a steamboat warehouse on the Athabasca at the mouth of Lesser Slave river.

JOHN COLEMAN has been appointed forest ranger at Edmonton in the place of A. E. Johnstone, resigned.

THE time for receiving tenders for the town fire hall has been extended until noon on Wednesday, July 13th.

A. E. JOHNSTONE, who has been forest ranger and homestead inspector at Edmonton since 1885, has resigned.

STURGEON river cheese factory will commence work on Monday. It will be at D. Craig's farm. Doray & Boulais, proprietors.

MISS MAUD LAUDER, youngest daughter of Jas. Lauder, fell from a horse and broke one of her arms near the wrist on Tuesday evening.

MISS V. LEPAGE, teacher of Fort Saskatchewan school, left by Wednesday's train on a trip to her old home in Rimouski, on a holiday visit.

BEFORE Inspector Piercy, J.P., on Wednesday, A. Vogel, charged with assaulting land agent Anderson in the land office, was fined \$10 and costs.

A DETACHMENT of six policemen, under acting corporal Gordon Wright, left on Wednesday's train to bring in a number of horses. They will return by trail.

A. HAMELIN arrived from Lac la Biche on Monday with a large lot of fur for sale. A party of Chipewyans, from Heart lake, north-east of Lac la Biche, accompanied him.

J. G. JESSEP, of the Red Deer land office, was in town on Tuesday. Mr. Jessup says that the Peace Hills district seems to be taking the lead in homestead entries in the Red Deer agency.

THE following pupils of Belmont school have written in the recent entrance to union school examinations; Maggie McLeod, Maggie Price, Lottie Coleman, Jas. Kernohan, Caroline Gullion, Lottie McKay. The following wrote in the promotion examination: Dolmin McLeod, F. Mitchell, Flora Fraser, W. Gullion, J. Gullion.

THE arbitration between the town and Luke Kelly as to the value of the lot owned by him at the junction of Namayo avenue with Main street, which the town desired to expropriate, has been concluded. The arbitrators awarded him \$1,640 for the lot and expense of removing the building now on it. The council accepted the award at the meeting last night.

THE plans for the new lands, timber and registry offices, at Edmonton, arrived last mail, and are open to inspection at the lands office, north side. The plans are in duplicate, one for brick and one for frame buildings. They are to be located on the site on the corner of Victoria Avenue and Sixth street, granted by the H. B. Co. Tenders must be in Ottawa on or before July 26th.

A MEETING of the Edmonton fire brigade was held on Tuesday evening last at the town clerk's office, for the purpose of electing officers and completing the organization. The following are the officers: Chief, Geo. P. Sanderson; assistant chief, K. A. McLeod; captain of chemical engine, A. Coghlan; 1st lieutenant, W. R. Howey; 2nd lieutenant, T. P. Cairney; captain of hook and ladder company, R. B. Nutt; 1st lieutenant, W. Patton; 2nd lieutenant, Mr. Van Buskirk; treasurer, A. H. Goodwin; secretary, F. D. Fortin.

CAPT. DAWSON has completed a trial line for a spur railway track from a point on the C. & E. line, near the Two Hills, to the flat opposite town. The line crosses the Mill Creek, at K. A. McLeod's farm, and follows the upland on the east bank of the creek to Geo. Donald's house. About that point it dips into the creek valley and follows down the right bank of the creek and river valleys until it reaches the level of the latter, with a fall of 2 feet in the 100 feet of line. The ground over which the line runs is good and construction easy.

F. T. GRIFFIN, assistant land commissioner of the C. P. R., and J. G. Fitzgerald, of Calgary, arrived on Monday's train to manage the land sale of Tuesday. This was Mr. Griffin's first visit to Edmonton, and he was most favorably impressed by the appearance of the country and the samples of its products which he saw. He found the season considerably in advance of Manitoba. The Edmonton townspeople pronounced the finest in appearance he had seen in Manitoba or the Territories. He was particularly struck by the deep dark green color of the landscape, which showed rankness of growth resulting from rich soil. Messrs. Griffin and Fitzgerald left on Wednesday's train.

MRS. A. MOWAT, of Clover Bar, is seriously ill.

J. MILNE, of Essex, Ont., is in town organizing a branch of the Ancient Order of United Workmen, a very powerful benevolent organization.

GENERAL NEWS.

The Macleod Gazette complains of dry weather.

The Moosomin Courier reports that cut worms are doing considerable damage.

Nineteen thousand sheep are being sheared on the Canadian Colonization Company's farms.

A new Methodist church was dedicated at Red Deer on June 26th. It has a seating capacity of 200.

The Moosomin town council has passed a by-law for the suppression of Sabbath breaking, gambling and immorality within that burgh.

Medicine Hat Times: The steel gray beetle which is playing havoc with the potato and beet crops in this district can be easily destroyed by sprinkling the tops with water in which Paris Green has been dissolved. About a dessert spoonful of the poison to a large pailful of water is sufficient.

Medicine Hat Times: If every community in the Northwest showed as much pluck when their interests are at stake, as did the Edmonton people, in the recent trouble over the location of their lands and timber offices, we would hear less of the selection of townsites by cabinet ministers on their own property, or of railways running to a point on the prairie, three or four miles distant from the town they were supposed to make the terminus, or of other indignities to which the people of this country, as a rule, quietly submit. In the Edmonton affair there is an ugly suspicion that the Minister of the Interior was interested personally in the removal of the lands office to the south side of the river. If not, agent Anderson is guilty of exceeding his instructions and acting in a very arbitrary manner and should be instantly dismissed. The citizens of Edmonton did well to use physical force to prevent the removal of the office to the south side of the river, where it would have been difficult of access to a large majority of the population of the district. It is about time this sacrificing of public interests, to the greed of government hangers-on, ceased in this country, and the people of Edmonton are to be congratulated on their firmness in dealing with this, the most flagrant attempt yet made to enrich influential government supporters at the public expense.

GENERAL NEWS.

■ Morder, Manitoba, shipped 687,000 bushels of last year's crops.

Moosomin Courier: "A party of emigrants from South Dakota passed through here on Monday morning for Prince Albert. They have three teams and a big bunch of cattle and horses with them and are travelling the whole distance by road, making from 15 to 20 miles per day."

LaRiviere told the immigration committee that while the government was spending thousands of dollars to bring immigrants from Dakota, in one month recently no fewer than 250 people from Ontario passed through Winnipeg en route to Minnesota and Dakota. They had over \$22,000 worth of effects, while the people coming from Dakota are practically penniless. He suggested the passage of a law prohibiting foreign immigration agents working in Canada. Mr. Burgess stated that of his own knowledge over 30 agents of American railways were working in western Ontario. He hoped the committee would adopt a resolution to strengthen his hands in dealing with them.

A copy of the Steveston, B. C., Enterprise has been received at this office, which gives a few particulars regarding the productiveness of the Fraser river delta. From one acre and a-half a gardener sold \$940 worth of strawberries. Four and one-half tons of hay have been cut to the acre. Eighty bushels of spring and 100 of fall wheat has been grown to the acre on Lulu island. Ten tons of potatoes to the acre is only a fair yield. Twenty-seven and a-half tons has been raised. Carrots average 30 to 40 tons, turnips 50 ton and mangold wurtzels 55 tons to the acre. A swede turnip was grown weighing 61½ pounds. It is a pity the area of the Fraser delta was not in proportion to its crops.

EDMONTON BULLETIN, JULY, 7, 1892

IMMIGRATION.

The proposition to dismiss wholesale the government immigrant agents, located at different points throughout Canada, does not seem to meet the approval of a majority of the papers of Manitoba and the Northwest. The BULLETIN has pleasure in most heartily endorsing this most vigorous move of the new and vigorous immigration policy recently inaugurated by the department of the interior, as distinguished from the old system under the department of agriculture. Since the publication of the census returns it has been no secret that the immigration service of the Dominion is utterly useless, and has been so for years. This being the case, the only thing to be done was to save the expense incident to the administration of such cumbrous and useless branch of the public service by discharging the officials who composed it. It is to be hoped that the good work thus commenced will be completed by the discharge of the officials working—or rather resting—in the British Islands and Europe generally. If the census returns and the evidence of the senses are to be trusted these people have been working energetically in the interests of the steamship and railway companies—but not in those of the settlement of Canada; for while they have sent three quarters of a million of people to Canada in ten years, we have now less population than our natural increase would give us, and what we have is in a larger proportion than ever native born. This shows that if they have done anything they have sent people who either did not want to stay with us, or for whom we had no use. If our immigration agents are for any purpose it is to induce people who will suit our country and whom our country will suit to come and settle in it. To do this is a benefit to the country, the settler, and in the interests of future settlement. To offer any inducement to people whom we don't want, or who don't want us is an injury to us and them, and the greatest barrier to future immigration that could possibly be erected. And yet, apparently, this is what we have been getting for the tens of thousands we have been paying annually in the belief that we were settling up our country; and the drain cannot be stopped too soon. Better have no immigration service at all than a service that injures us as this has done.

Then what is to be done? Just this

Instead of our government thinking that it can induce people who are of any value to stake their welfare for life on a ten dollar bonus, or a cheap steamboat passage, administer our lands, our railways and our tariff so that instead of this country having the name of being handed over to monopolists of every kind, to as great or to a greater degree than the United States, it shall have the name, and be in fact, a country where people may prosper according to its natural resources and their own energies properly directed. Taken on this basis, no country in the world to-day offers such advantages to the man full of intelligence, ambition and day's works, as the Northwest or indeed Canada as a whole. To give the freest facility to the fullest energy is the part of the government in inducing immigration. It is the part of the people—the farmer, the business man, the manufacturer and the professional man—to know and advertise as widely as possible the good features and advantages of their respective districts, and particularly the advantages of the whole country. Above all it is the duty as well as the interest of the eastern provinces which are the first to receive immigrants from Europe and whose natural increase of population necessitates the annual removal of large numbers of their people to other fields, to give the fullest prominence to the Northwest and its advantages. Out of nearly a million Canadians who have gone to the States in the past years we have begun to get a few back a few hundreds, and great has been the rejoicing thereat. We have been under the impression that as Canadians had begun to come back from the States they had surely ceased to go there, but this not so. It appears that this spring over 250 Canadians have gone to the States via Winnipeg, and that dozens of United States railway agents are working now in Western Ontario, no doubt with some success. The great success which such agents have attained in the past in taking away our people has been through the efforts of specially qualified men working amongst people whom they thoroughly understood. This is the only immigration system that is worth one dollar to any one, and unless Canada can employ such agents in the same way it is better to employ none at all. In the meantime every effort should be put forth to direct our own people to those parts of our own country where better opportunities await them than in any part of the United States, that is in our own Great West.

Macleod Gazette: Macleod people were considerably startled on Saturday last when Dr. Kennedy gave out that he had a case of small-pox on his hands. The name of the man was George Hall, a painter. He is a stranger here, having lately arrived from the coast, staying ten days at Calgary, en route. He came as far as Mosquito Creek on the train, and from the end of the track walked to town. He and his partner secured a job of painting at Mr. Currier's ranche on the 17th. On the following Sunday he fell ill, and on Tuesday he was brought into town. Dr. Kennedy saw him on Wednesday evening, and thought he was suffering from promonitory symptoms of scarlet fever. Saturday morning he made up his mind that it was a genuine case of small pox. He called in Dr. Aylen, who corroborated his diagnosis. The man had been living in a log shack, and steps were immediately taken to isolate him. In the meantime, Mr. Haultain was telegraphed to, and on Sunday morning authority was received to do everything that was necessary to insure the isolation and care of the patient, and to prevent the spread of the disease, all expenses to be paid by the government. Acting on this authority, Dr. Kennedy suggested the formation of a board of health. This was done, and Messrs. Gigot, Hollies and Grady composed it. It was necessary to get the patient away from the centre of the town, and on Sunday evening he and his attendants were removed to a camp a safe distance east of the town. Another attendant was provided, and a police guard put on to maintain the quarantine. The patient is doing as well as could be expected. It is a severe case of confluent small-pox, but the doctor has hopes the man will recover all right.

ENGLISH SUMMER GOODS!!

JUST ARRIVED AT THE

Manchester House.

I beg respectfully to inform the Public of Northern Alberta that I have now returned from the British markets where I have bought a large and most valuable assortment of English Goods, which are now opened out. Having purchased on specially advantageous terms for cash I have secured some great bargains, and with the intention of doing the largest Dry Goods trade in Town, I will sell at prices that cannot fail to make business fairly boom.

LADIES' DEPARTMENT,

DRESS GOODS, &c., A SPECIALITY.

Space prevents enlarging on this head, but I beg to state that nothing in this portion of the North-west can surpass my line of Dress Goods and Trimmings, Silks, Delaines, Delainettes, Satteens, Muslins and Prints, &c., &c., which for durability, beauty and cheapness, far exceed anything yet shown. In Laces, Frillings, Ribbons, Artificial Flowers, Sailor Hats and Fancy Millinery generally, will be found an endless and most complete assortment. Then in Ladies' Summer Jackets and Ulsters, Blouses, Beaded Lace Capes, &c., will be seen a very fine range. And to Ladies Silk Hosiery and Summer Underwear I would draw special attention.

MEN'S DEPARTMENT.

In Men's Summer Suits the Stock is large, and prices lower than ever. Also in White Dress and Regatta Shirts, Flannel, Flannelette and Knitted Shirts and Underwear of all kinds, the stock is large and well assorted. In Ties, Scarfs, Gloves, Belts, Braces, &c., &c., the stock is enormous and prices cut to the closet margin.

House Furnishing, Crockery, China, &c.

Parties furnishing will do well to inspect the large assortment of these goods now displayed. A very fine range of Carpets and Rugs to arrive immediately.

Parties writing for samples of Dress Goods, Etc., will receive prompt attention. And to all desirous of inspecting and pricing the goods, a cordial welcome will be given as I am confident that my values will satisfy the keenest buyer.

C. P. R. LANDS.

The C. P. R. land sale was well attended, but not so largely as was expected, there being only a comparatively small number of eastern buyers. Of the eastern men, however, a number had been here for some time, and had looked over the ground so that buying was done more carefully than at the former sale. At that sale, land in the immediate vicinity of the railway station went at the highest figures, and indeed the high average reached at that time was made by a very few sections near the station. On Tuesday the highest figure of \$4.65 was reached by the NW 1/4 of 13-55-24, in the Sturgeon settlement, the purchaser being D. L. Latimer. Lands at a distance from the station averaged slightly higher all around, on Tuesday, than at the sale in May. Nearly 8,000 acres were sold at prices ranging from \$3.05 to \$4.65, the average being \$3.60. At the May sale the average was \$4. The sale was in McLeod's hall. It opened at 1:30, p.m., and was continued until about 5 o'clock. Bidding was lively, but there was no desire shown on the part of the buyers to run up prices beyond a reasonable figure. Several parcels of land were offered to which settlers laid claim, on the ground of having improvements or other title. In some cases the lands were withdrawn, and in others were offered subject to the settler's claim. That is if the squatter showed his right to the place he would get it and the buyer would be refunded his money. Everything passed off very quietly and satisfactorily. The lands remaining unsold will not be again offered at auction, but will be valued according to quality and location and sold at a fixed price.

ATHABASCA LANDING.

R. Secord arrived from the Landing on Sunday. Rev. Mr. Brick left the Landing for Slave lake and Peace river on June 22nd, and Mr. Dowling, of the geological survey, left for lake Athabasca on June 25th. A party of Chipewyan Indians arrived from Fort Smith, on the Great Slave river, about 600 miles down the Athabasca, bringing a considerable quantity of fur, which Mr. Secord purchased. Eleven of them came to Edmonton to purchase supplies. They reported a cold winter in the north last winter, but food and fur plentiful. Cariboo, the deer of the Barren Grounds, were in large numbers, only a day from Fort Smith all winter. They killed two wood buffalo last winter, the skins of which Mr. Secord purchased. They are much larger than hides of the prairie buffalo. The Chipewyans met S. D. Mulkins, C. Fowler and H. Anthony a day south of Chipewyan, making good progress on their journey to Fort Resolution.
